Subject: Data Evaluation Report 6: Biota Analysis

Turns out that Ed Garvey (who led this effort) will be on vacation during the week of July 16-20, and I would rather schedule a call to discuss this document after he gets back (with no impact on the schedule).

So please get me comments by COB on Tues 7/31 and let me know your availability for a call during the week of 8/6-10.

Attached is the draft Data Evaluation Report 6, Biota Analysis (the last Data Eval Rpt) for your review. It is also posted on Sharepoint, under "Reporting>Report Documents". I have not had a chance to review it yet, but since I am going on vacation tomorrow, I am sending it to you so you have a head start.

Please send me comments by COB on July 13. I will schedule a call to discuss the report and/or comments during the week of July 16-20. Please let me know your preference for date/time.
